SKILLS

- Bug Hunter
- Penetration Testing
- Vulnerability Scanning
- CTF Player
- Flutter
- Python
- Artificial Intelligence (AI)
- time management
- social network
- problem-solving
- Cloud Security
- Network Operations
- Security Operations Center
- Thread Intelligent

LANGUAGES

- Arabic
- English

PROFILE

I am Ahmad Alkhateeb, a Bachelor's student majoring in Cyber Security at Hashemite University. I am passionate about penetration testing, vulnerability analysis, and cyber threat detection. I have completed several specialized training programs and gained hands-on experience in Security Operations Center (SOC) environments, including monitoring security alerts, analyzing incidents, and responding to potential threats. My graduation project was honored as one of the outstanding projects for its innovation and relevance in addressing cybersecurity threats using machine learning.

CERTIFECT

- Penetration testing training** 2024
A practical training certificate in penetration testing from the Cyber-eto, focusing on discovering and analyzing security vulnerabilities using professional tools.
- NMAP Course** 2024
Nmap is an open-source tool used to scan networks, discover hosts and services, and identify vulnerabilities.
- Cyber Warriors Training** 2024
The purpose of the training:
 - Detecting and addressing advanced cyber threats.
 - Using attack analysis and penetration testing tools.
- CompTIA Security+ AZ-900** 2025
- CCNA 200-301 (pending)** 2025
- SAL1 tryhackme (pending)** 2025
- Google AI Competition (5th Place):** 2025
Developed an AI agent for automating GRC risk assessments
- SOC LetsDefend** 2025

Experiences

Intern - Network Security & SOC Operations

Housing Bank

- Monitored and analyzed security alerts within the Security Operations Center (SOC).
- Assisted in incident detection, initial triage, and escalation procedures.
- Worked on network security operations including log analysis and traffic monitoring.
- Gained hands-on exposure to enterprise network environments and daily network operations.
- Collaborated with security and network teams to support threat detection and response activities.

EDUCATION

Bachelor of Cyber Security

2021-2026

Cyber Security | Hashemite University

GPA: 3.18 / 4.0
